Academic Skills Development

Our academic skills centres and services are designed to help you improve your research and presentation skills, as well as assist in general professional development.

- **Lectures**

Lectures are the major method of teaching at SBCS. In lecture sessions, students are encouraged to exchange ideas. Intellectual skills and discipline are developed with an ability to assimilate information quickly and work to meet deadlines. Proper participation in classroom activities avails the student with transferable skills and invaluable preparation for life after SBCS.

to access required reference materials, both general and pertinent to their course of study. Our physical library space is outfitted with computers, printing facilities and Wi-Fi access. SBCS' Library service complements the virtual research facilities granted to students by the foreign Awarding Body in charge of their programme.

Catalogues and Electronic Resources

The computers in the library have internet access and are fitted with USB drives. Readers can use their own laptops in the library. Designated desks have power plugs. Wireless access is available in all areas within the library.

You are advised that once your programme has ended and your registration period with SBCS has expired, you would no longer be able to access the facilities.

ACADEMIC OBLIGATIONS

Having entered an academic institution, your primary goal should be achieving academic excellence. You should also understand that this experience is a holistic one which should involve participation in non-academic activities on campus. Involvement in these activities should bring some pride as you reminisce on your life at SBCS. Your participation in non-academic activities is especially beneficial as they help you develop team-building skills, which will serve you well when you enter the world of employment.

You should be assured that after your SBCS experience you will confidently be able to add value to any organisation.

ACADEMIC EXCELLENCE

To attain academic excellence, you must pursue your studies at the best of your ability. As a full-time student, efforts to study should be equivalent to a full-time working week, which is at least 40 hours. In the words of Uriel Solomon, “Those who fail to prepare are preparing to fail”. With commitment and organisation, it is possible to take on never-imagined academic challenges and enjoy non-academic activities at the same time.

Part-time students, your mission is not an impossible or unattainable one. Achieving your academic goals requires tremendous discipline as you balance work, social / family life and studies. The key to success is time management, which involves commitment and organisation of tasks. We should all be guided by the words of Walt Disney, “When you believe in a thing, believe in it all the way, implicitly and unquestionably.”

SBCS E-Learning (MOODLE)

What is SBCS E-Learning (Moodle)?

SBCS E-Learning is an Open Source Course Management System (CMS), also known as a Learning Management System (LMS) or a Virtual Learning Environment (VLE). The main aspect of SBCS E-Learning is to improve and facilitate the interaction between Students and Lecturers. The CMS will provide an interface in which students can access course material, as well as interact with other members of their respective class.

Process of an SBCS E-Learning (Moodle) Course:

Students will be added to SBCS E-Learning (Moodle) a day before classes commence and will be automatically unenrolled at the end of the Examination Period.

NB: Lecturers will inform students on the first session of the semester as to whether your course is on the platform.

Benefits of SBCS E-Learning to Students

- Students no longer have to Log into multiple platforms to access material
- Students no longer have problems interacting with classmates or Lecturer

STUDENT GRIEVANCE & COMPLAINTS POLICY

Policy Statement

SBCS seeks to promote an educational environment that values communication, fairness and respect among students, faculty and staff. Despite these efforts, differences in the values and/or goals of members of the aforementioned groups may occasionally contribute to circumstances that leave the student(s) feeling aggrieved. Such occurrences warrant a process by which students can seek a resolution to their grievances.

Students as individuals or as a group may address matters that they deem to be unfair or unreasonable on the part of SBCS or any individual(s) representing SBCS.

Types of Grievances

Most student grievances fall into one of the following three groupings:

a) Academic Grievances

In instances where SBCS lecturing staff grade coursework or assignments and said grade contributes to the final grade of the student, the student may submit a written grievance for a grade only if unfair or unreasonable procedures are alleged to the following Academic Unit heads:

- Corporate Education & Training Centres (CETC) – Manager
- Centre for Information Technology and Engineering (CITE) – Manager
- Accountancy Training & Education Centre – Manager
- Centre for Undergraduate Business Programmes – Manager

Where final grades are given by an external examining body other than SBCS the student is bound to follow the grievance procedure of said body.

b) Administrative Grievances

This may include grievances about decisions on administrative matters, the quality of administrative services or the provision of facilities.

c) Conflictive or Discriminatory Grievance – Non-Academic or Administrative

Grievances about student behaviour as well as grievances about staff behavior will also be addressed. Students have the right to be treated without discrimination regardless of race, creed, nationality, sex, disability or place of origin. Students also have the corresponding responsibility to treat all members of the SBCS community with respect.

Grievance Forums

- a) In-class and Online Course Evaluation Forms – Evaluation performed by Course Administration Unit
- b) Student Grievance Report Forms – via Student Services Department when making a formal report

Grievances and Complaints Procedure

Course Evaluations

Students are advised to record all instances of dissatisfaction with the services provided by SBCS or the behaviour of SBCS personnel on the Course Evaluation Forms administered in class during the semester.

Course evaluation forms are reviewed by the Course Administrator, Lecturer, Programme Manager, Quality Assurance and the Executive Director. Areas for improvement that are noted on the course evaluations will be addressed by the above parties or their designate.

Resolution Procedures

It is important to note that using the Resolution Process will not always mean that SBCS will reverse a decision, end the complained of behaviours or right all perceived wrongs. There are practical limitations on the scope and effectiveness of the resolution process, including:

- Disagreements - an action or decision may not be unreasonable or unfair simply because you disagree with it, particularly when academic judgement is involved.

Grievances and Complaints Process

Informal discussion

Issues may occur that are not best addressed by the system of written course evaluation due to urgency, type of grievance, uniqueness and/or magnitude. Students who wish to grieve a matter are encouraged to first have an informal discussion with the person(s) directly responsible/involved. This provides an opportunity for grievances to be resolved quickly, with the fewest possible people involved, and to avoid the grievance escalating in scope and impact.

Issuing a formal complaint / Formal Review

If the aggrieved is not satisfied with the response of the individual(s), or if the student is unable to discuss the matter with the individual(s) involved, a student may address their grievance to the Programme Manager, or the Manager, Support Services.

The student may lodge a formal written complaint at the Student Services Department within 14 working days of the incident. Grievance letters that are posted or mailed electronically are also accepted. A Student Grievance Report Form will also be issued by Student Services.

The aggrieved student will complete the form identifying the nature of the grievance, giving all the relevant facts, the person directly responsible and/or other appropriate person(s) as perceived by the student and, what resolution the student is seeking. Importantly, the Student Grievance Report Form must be signed and dated by the aggrieved upon submission.

The Manager, Strategic Support Services, who is the head of Student Services will forward issues that are to be addressed by personnel in other departments to the appropriate supervisor or department head.

Case Review

Where the grievant or the respondent is unsatisfied with the proposed resolution, the matter is reviewed by one of the following managers: Programme Manager, Manager, Support Services or the Senior Manager, Quality Assurance. The relevant Manager shall schedule separate meetings with the grievant and any other parties cited to obtain clarification of the issues involved.

Feedback / Resolution

The Programme Manager/ Manager, Strategic Support Services / Senior Manager, Quality Assurance shall respond to the grievant and describe the actions taken within 10 working days of meeting with the parties involved.

If further action is required or the matter is unresolved after 10 working days, the Manager, Strategic Support Services will seek an agreement with the complainant on a suitable time-frame for a subsequent report.

Confidentiality

All participants in the Student Grievance Resolution Process are bound by confidentiality. All information provided is confidential and must only be used for the purpose for which it was provided and by people within the process. Exceptions to this are:

- a) if the information gives SBCS reasonable grounds for concern about security of people (including the grievant) or property
- b) if the individual who provided the evidence gives express consent
- c) when procedural fairness requires the information to be shared
- d) when access to information is required by law
