

The **Fundamentals of Health Safety and Environment (FHSE)** from SBCS GLI Limited, is a foundation course that enables students to develop an understanding of the significant health and safety risks facing learners in the workplace and how to identify and deal with them appropriately. Students will be assessed at the end of this course and issued a certificate from SBCS.

## Aims

The course aims to:

- Introduce the student to the concepts of workplace health, safety and hygiene.
- Make the student aware of the importance of good workplace health, safety and hygiene practices.
- Introduce the student to the concept of hazard identification and analysis, and risk assessment and management.
- Examine some of the more common health, safety and hygiene issues associated with the workplace.
- Consider the scientific and technical controls available to deal with workplace risks.

## Learning Outcomes

At the end of the course, the student will:

- Understand the importance of ensuring good occupational health, safety and welfare.
- Appreciate the mechanisms associated with accidents and ill-health in the workplace.
- Be able to identify hazards in the workplace and undertake a simple risk assessment.
- Be familiar with some of the more common health, safety and hygiene issues associated with the workplace.
- Appreciate and understand the application of the control measures available for workplace health, safety and hygiene risks.

## Topics Covered

- Hazard and Risk
- Equipment and machinery safety
- Construction
- Legislation
- Safety at work
- Fire and Electricity
- Environment

### Progressing to the BSc/MSc

Upon successful completion of the FHSE programme, students are eligible to progress to the **BSc (Hons) Occupational Safety Health and the Environment (OSHE)** as long as they possess one of the following entry qualifications:

- Associate Degree in Environmental Health
- Associate Degree in Environmental Technology
- Associate Degree in Water Resources Management and Technology
- Associate Degree in Agriculture
- Associate Degree in Forestry
- Associate Degree in Environmental Management
- Associate Degree in Medical Laboratory Technology
- Associate Degree in Physics
- Associate Degree in Biology
- Associate Degree in General Nursing
- Associate Degree in Nutrition and Food Science
- Associate Degree in Security Administration and Management
- City and Guilds Electrical and Electronic Advanced Technician Diploma
- Any Associate Degree in a Science and/or Engineering subject.
- EDEXCEL HND Building Services Engineering (HND BSE)

**Degree holders** of a suitable standing can also pursue the FHSE as a bridging programme and progress to the **MSc Safety Health and Environment/Occupational Hygiene**.

**NOTE: All applicants that wish to progress to the BSc/MSc must be assessed by the University to confirm their eligibility.**
